NATE MICINSKI

FULL STACK DEVELOPER

PERSONAL PROFILE

Full Stack Developer with a focus on JavaScript. Obsessed with clean, semantic code. Consistently focused on skill development. Clear communicator, supportive and collaborative team member, intrinsically motivated to create beautifully functional front-ends and efficient and resilient back-ends.

WORK EXPERIENCE

Front End Software Engineer
Midspace | February 2022 - March 2022

- Build and maintain front-end for social-impact-driven virtual conferencing software.
- Focus on accessibility of software to support diverse communities of learners, hybrid conferences, and fully virtual conferences.
- Work in Typescript, React, AWS, and ChakraUI.

Front End Web Developer
AndAlways | January 2021 - February 2022

- Build and maintain front-ends for e-commerce company with multi-million dollar annual revenue.
- Conceptualize and build front and back-end improvements and fixes on internal product-fulfillment dashboard.
- Collaborate with graphic designer to translate complex graphic designs from Figma into adaptable and flexible front-end code.
- Implement split tests to drive revenue growth and monitor analytics. My code has increased sales by nearly 10% across our products.
- Use CI/CD pipeline based on Git version control to rapidly deploy product updates and QA new code via cross-browser and cross-platform testing.
- Work in Next.js, React, Tailwind, GraphQL, Apollo, and MongoDB.

Owner, Full Stack Engineer
Holistic Web Solutions | September 2019 - Present

- Create comprehensive web solutions uniquely designed for clients and their brand.
- Conceptualize and build bespoke websites and apps that deliver fast, responsive, and user-focused digital experiences that drive brand growth and engagement.
- Recent projects include an Electron app "mosaic" wall for a global corporation's trade-event booth and a scratch-to-win web application for a healthcare company's virtual trade-event.
- Work in React, Electron, Gatsby, and NetlifyCMS.

PROJECTS

Midspace	Open source repository for Midspace app.
TwinkleInTime	Front-end site for AndAlways product.
OverOurMoon	Front-end site for AndAlways product.
Spicy Green Book	Open source contributor to React and React Native app.
Beyond the Block, Inc.	A custom website and blog created with Gatsby and NetlifyCMS.
